soon after his death vincent van gogh s reputation grew and developed through the extraordinary symbiosis evident between his paintings and letters however it is a formidable task to read and analyze van gogh s nearly eight hundred letters due to the sheer bulk and complexity of the collection reading vincent van gogh is at once an interpretive guide to the letters and a distillation of van gogh s key themes and ideas this indispensable synoptic and interpretive view of the letters as a whole will be equally of interest to scholars and teachers making use of van gogh s letters as it will be to those who have long been fascinated by the artist this is the third book by patrick grant on the letters of vincent van gogh it builds on his previous work in the letters of vincent van gogh 2014 a practical critical study and my own portrait in writing 2015 a literary theoretical analysis that draws on the domain of modern literary studies in the hands of patrick grant the extraordinary literary achievements of vincent van gogh are explained and exemplified and claims that the well known artist was also a great writer are confirmed

the european codification project has rapidly gathered pace since the turn of the century this monograph considers the codification project in light of a series of broader analytical frameworks comparative historical and constitutional which make modern codification phenomena intelligible this new reading across fields renders the european codification project currently being promoted through the common frame of reference and the optional sales law code proposal vulnerable to constitutionally grounded criticism traceable to normative considerations of private law authority and legitimacy arguing that modern codification phenomena are more complex than positivist socio legal and historical approaches have suggested over the past two centuries the book stages a pathbreaking method of analysis of the law discourse nomos centred which questions at once the reduction of private law to legislation and of law to power and on this basis redefines the ways in which to counter law s disintegration and crisis in the context of europeanisation professor niglia reconstructs the european codification project as a complex structure of government in the making that embodies a set of contingent world views excludes alternatives challenges the plurality of private laws and entrenches conflicts that pertain not only to form codification de codification recodification but also to dilemmas implicated in determining the substantive orientation of european private law the book investigates the position of the codifiers and their discontents in the shadow of the codification strategy pursued by the european commission noting a new turn in the struggle over the configuration of private law which has taken place since the savigny thibaut dispute of 1814 which this book critically revisits exactly two centuries later this monograph is particularly aimed at readers interested in exploring the complexities and interconnections of the supposedly separate

realms of comparative law european law private law legal history constitutional law sociology of law and last but not least legal theory and jurisprudence
