most major economies use a value added tax vat which is a derivation of the french 1954

taxe sur la valeur ajoutée the initial imposition of vat in france and its spread around the world have been driven by economic reasons this book focuses on one of these economic triggers the neutrality of vat as regards the functioning of the economy it demonstrates that the reason vat was chosen in france and why thereafter it spread around the world was because it offered the possibility to collect governmental revenue while allowing the economic forces of the market to interplay without being adversely affected the prerequisite conditions for the existence of vat neutrality are therefore identified herein along with an overview of the vat mechanism demonstrating that the concept of neutrality is built into the vat system in a manner that allows for the preservation of the natural functioning of the market after the definition of vat neutrality is set forth the elements that comprise vat neutrality are tested against the realities on the ground and the issues that infringe the neutrality of vat are identified and analysed in conclusion remedies for these issues are being sought by a review of the causes of infringement of vat neutrality in the perspective of selected proposals for modified vat systems these proposals include redesignating the place where vat is levied and improving vat collection ultimately the proposed solution has recourse to the roots of vat together with the most advanced technological tools available to give back to vat the power to levy revenue while letting the economic forces of the market interplay without instigating any adverse influence

despite the growing importance of consumer welfare in eu competition law debates there remains a significant disconnect between rhetoric and reality as consumers and their interests still play only an ancillary role in this area of law consumer involvement in private eu competition law enforcement is the first monograph to exclusively address this highly topical and much debated subject providing a timely and wide ranging examination of the need for more active consumer participation in competition law written by an expert in the field it sets out a comprehensive framework of policy implications and arguments for greater involvement positioning the debate in the context of a broader eu law perspective it outlines pragmatic approaches to remedial and procedural measures that would enable consumer empowerment finally the book identifies key institutional and political obstacles to the adoption of effective measures and suggests alternative routes to enhance the role of consumers in private competition law enforcement the book s innovative approach combining normative analysis and practical solutions make it invaluable for academics policy makers and practitioners in the field

based on comparative adult education statistics offered by the organisation for economic co operation and development oecd survey of adult skills piaac and country case studies this book analyses the policies and structures that foster adult learning it examines a variety of forms of adult learning ranging from initial forms of post compulsory education such as upper secondary tracks and tertiary education to firm training compensatory adult education and learning for civic and leisure oriented purposes throughout the book adult learning systems are directly linked to a variety of structural and public policy frameworks using a comparative welfare state approach themes such as pathways to learning and transition systems participation patterns in higher education and participation patterns in other organized forms of adult learning are covered the countries discussed are the uk the usa korea denmark finland norway germany and the netherlands situated at the intersection between scholarship and policy and using a mixed methods approach this title contributes fundamental insights into the further study of policies and structures related to alternative

post compulsory learning pathways

why do some countries govern by moderate neoliberalism while others by a radical version looking at Spain and Romania ruling ideas points to the role of local intellectual traditions the strength of international alternatives the resources of the local advocates of neoliberalism and their vulnerability to external coercion
